Cartagena offers a unique experience in a wonderful historical setting. It evokes the romance of times past, carved on the cobbled streets and walls.

Cartagena is a magical place, surrounded by walls that tell a history of piracy and the bloody battles that brought freedom the “heroic city”. There is plenty for the visitor to enjoy among its beautiful buildings, monuments, churches and parks.

Walk the streets, look at such splendid buildings as the Palace of the Inquisition, the Clock Tower, the battlements and the Castle 0f San Felipe de Barajas.

Museums, the cathedrals, Spanish-style houses, water sports and some amazing beaches – these are just some of the attractions of the city and its surroundings.

Cartagena entrega una experiencia única en un entorno maravilloso que evoca las historias y el pasado, además del romance de aquellos tiempos que se quedaron grabados en sus caminos de piedra y en las murallas.
