

Located in a mountainous area of green landscapes

The best experimental farm of the Colombian Federation of Coffee Growers is found in Chinchiná. Nowhere else is so much known about coffee.

One of the most suitable sites for engaging in extreme sports. The tour of this municipality shows the most important aspects of the Coffee Culture: the cultivation and management of watersheds, production techniques, architecture and management of certain construction materials, traditional cuisine, and many other local customs.

Summing up, it shows the entire Paisaje Cultural Cafetero (coffee culture landscape), soon to be declared a World Heritage site by UNESCO.
