Cali has excellent topography for golf courses.

Cali: The place for salsa and golf

Cali is a city with large spaces and venues for tourism and recreation. It is the third largest city in Colombia with historic sites and places for daytime and night time fun, making it a popular center for entertainment and tourist attractions.

Cali is one of the country's main economic and industrial centers and the main urban, economic, industrial and agricultural hub in the south west of Colombia.

In Colombia, the city is famous as the capital of partying, street festivals, dancing and salsa. The people of Cali have created a culture of recreation and hedonism, in harmony with the natural surroundings and rural life.

The golfer is able here to enjoy a beautiful panorama of the course and its imposing landscapes.

The golf courses have been designed by international companies and figures such as Raúl Posse, Howard Watson and Canadian Golf Landscaping. They have been designed to be challenging and make the most of the Western Andes Mountain landscape, the excellent topography, beautiful lakes and tropical vegetation, all to meet the needs of golf lovers.

In this city, the golfer will get beautiful panoramic views of the countryside and the imposing landscape.
