Sampling and innovation to suit your taste

Cali's gastronomy routes are among the most varied in the country. We are not exaggerating when we say that a major part of the cuisines of the world may be sampled in Cali in five well-defined areas: El Peñón, the Parque del Perro, Santa Mónica, Ciudad Jardín, and Granada, with a total of over 400 restaurants. Granada concentrates 70 places for exquisite and varied national and international food, live music, and a series of unique shows.
